WHAT DISTINGUISHES US

Relationships are our top priority

- ➔ More than 75% of our business comes from existing, long-term relationships. Clinical Dynamix is committed equally to delivering exceptional talent to our clients as well as offering life-changing career opportunities to candidates. Earning and maintaining trust from both clients and candidates is the cornerstone of our success.

There is no client "too small" or "too big"

- ➔ CDX works with companies ranging in size from start-up to S&P 500, from public companies to those backed by venture capital and private equity investors.

Every assignment is essential

- ➔ We understand that every role is mission-critical to our clients. Our processes and standards are just as exacting for C-suite roles as they are for support roles.

100% flexibility on resourcing pathways

- ➔ Clinical Dynamix sources both FTE and contractor staff, giving the client the ability to scale staff dynamically
- ➔ Clinical Dynamix operates its own time-tested infrastructure, including all necessary corporate insurances and employee benefits, allowing the client to focus on its core mission while CDX takes care of everything else
- ➔ CDX conducts searches on a contingency, retained or hybrid basis.
